Your tests will be reported by a specialist. The report will then be sent to the Doctor who referred you.  
You need to discuss the results with your Doctor.

HeartWise is a specialized company providing you with accessible and accurate testing when you need it. Our staff are well trained with many years of experience in echocardiography for both adults and kids. Most importantly, we love what we do!

#### **Echocardiography (Echo)**

Ever wanted to look inside your heart? Well, now you can. We use sound waves to create an image of your heart and measure it. You will even be able to hear what is going on inside!

While we perform the test, you can relax or have a short rest. All it involves is a few stickers and a bit of jelly on the chest.

*Approximately 20 – 30 mins*

#### **ECG**

This a quick and simple procedure where we use lots of stickers to connect you to our computer, which then prints out a rhythm trace of your heart's activity.

*Approximately 5 – 10 mins*

#### **Holter**

24 hour monitor (little box) that is connected to you via stickers & wires. It records your heart's rate and rhythm while you record a diary. You can do everything as usual, except get it wet. (ie. no shower/bath). This needs to be returned via registered post the following day.

*Approximately 5 – 10 mins*

#### **Tips for parents of young children**

It is easier to achieve the desired results with children who are cooperative and lying still, so feel free to bring anything (books, music, soft toys, lollies, etc.) that may help keep your child still and occupied during the painless test.

#### **HeartWise Clinics**

**Ascot Vale** 357 Mt Alexander Rd

**Carlton** 488 Swanston St, Ground Floor

**Carrum Downs** 335 Ballarto Rd

**Epping** 771 High St
