## Appointment Reminder:

Please provide at least 24 hours' notice for any appointment changes, as late cancellations may incur a fee.

Kindly wear comfortable two-piece attire for your appointment.

Bring your Doctors referral, Medicare card and Health Care/Concession Card (if applicable).

Heartwise is a private billing clinic, and out-of-pocket fees apply. Please ask our reception team about fees and Medicare rebates.

## Echocardiography (Echo)

Ever wanted to look inside your heart? Well, now you can. We use sound waves to create an image of your heart and measure it. You will even be able to hear what is going on inside! While we perform the test, you can relax or have a short rest. All it involves is a few stickers and a bit of jelly on the chest.

Approximately 20 – 30 mins

## ECG

This a quick and simple procedure where we use lots of stickers to connect you to our computer, which then prints out a rhythm trace of your heart's activity.

Approximately 5 – 10 mins

## Holter

24 hour monitor (little box) that is connected to you via stickers & wires. It records your heart's rate and rhythm while you record a diary. You can do everything as usual, except get it wet. (ie. no shower/bath). This needs to be returned via registered post the following day.

Approximately 5 – 10 mins

## Tips for parents of young children

It is easier to achieve the desired results with children who are cooperative and lying still, so feel free to bring anything (books, music, soft toys, lollies, etc.) that may help keep your child still and occupied during the painless test.
